"Cinta Hermo is the creator and director of **HAV- Helsinki Arte Vivo**- a multicultural project for Peace, Nature and the Eradication of hunger. She has demonstrated an ability to unite different cultures, evident in her discography of 7 CD's with the world music group Piirpauke and 2 solo CD's, and by bringing together multicultural Helsinki resident artists in brilliant concerts in Stoa, in the spring 2012, specially developed for the HAV project. ([www.cintahermo.wix.com/hav](http://www.cintahermo.wix.com/hav))

Cinta chose about 50 artists from 5 continents for an extraordinarily rich linguistic collaboration, united through music as the universal language. The audience was enthusiastic and the concert series had a grand finale attended by then Finland's President Tarja Halonen.

From the HAV encounter, the group Ethnopolis was born; once again musical multilingualism on stage (Australia, Algeria, Brazil, Iran, and Spain). Ethnopolis performed in Maaailma Kylässä (World Village Festival) in Helsinki last May 2012 and had a closing concert in Vuotalo in November 2012, which was a colorful, magical farewell that left the door open for future encounters. We are sure the Andalusian Cinta Hermo with her intense heart and flamenco know how will continue to look for a better world with her art. As organizers and producers from the City of Helsinki, we are very happy to see the cultural progress, richness, and tolerance that is lived nowadays in Finland. It is an honor to confirm these words". Helsinki, 7.3.2013. **Petra Hannus**/ Cultural producer of Helsinki
